## **Video Security in Use**

Appalachia High supports safe and caring learning environments for all of our students, staff and visitors. Supervision is provided at all times that students are in school and to support our efforts during and beyond the school day we have also installed a video security system. We have video cameras at several locations outside our school to assist in keeping our students, staff and property safe. Our cameras operate 24/7.

If you have questions regarding the use of video security systems by our school please contact Jeffrey Blundon, Principal, at 647-3381. The Western School District policy on the use of video security systems is available at [www.wnlsd.ca](http://www.wnlsd.ca).

The legal authority for the use of video security systems derives from the *Schools Act* and the use, security and disclosure of personal information collected on video falls under the *Access to Information and Protection of Privacy Act*.
